The IRS doesn't **initiate** contact with taxpayers by email, text messages or social media channels to request personal or financial information. This includes requests for PIN numbers, passwords or similar access information for credit cards, banks or other financial accounts.

### What is phishing?

Phishing is a scam typically carried out through unsolicited email and/or websites that pose as legitimate sites and lure unsuspecting victims to provide personal and financial information.

Report all unsolicited email claiming to be from the IRS or an IRS-related function to [phishing@irs.gov](mailto:phishing@irs.gov). If you've experienced any monetary losses due to an IRS-related incident, please report it to the [Treasury Inspector General Administration \(TIGTA\)](#) and file a complaint with the Federal Trade Commission (FTC) through their [Complaint Assistant](#) to make the information available to investigators.

**NOTE:** Please refer to [Contact the IRS](#) if you have a tax question not related to phishing or identity theft.

See [YouTube](#) for more ID theft videos.

### ALERT: Phone Scams Continue to be a Serious Threat
